FARMERS' REGISTER.
CONDITIONS of the Farmers' Register,
for the Ninth Volume, to be com-
menced January, 1841.
Article I. The Farmer's Register is pub-
lished in monthly numbers, of large octavo
pages each, at \$5 a year, payable in advance.
[See also "Prenumiums" below.] It is now
also issued (and consisting of nearly the same
matter) weekly, in a single sheet of 16 pages
octavo. Price and conditions the same for
both forms of publication.
II.—All mail payments must be paid in bank
notes, or checks, of par value in Virginia; or
otherwise of a city bank of the State in which
the subscriber resides; and all letters to
the publisher, (except such as contain articles
for publication,) must be post paid; and the
publisher assumes the risk of loss by mail-car-
riage of all letters and remittances, and which
have been properly committed to the mail, or to
the hands of a postmaster.
III.—If a subscription is not directed to be
discontinued before the first number of the next
volume has been published, it will be taken as
a continuance for another year. Subscrip-
tions must commence with the beginning of
some one volume, and will not be taken for
less than a year's publication.
IV.—The mutual obligations of the publish-
er and subscriber, for the year, are fully in-
curred as soon as the first number of the volume
is issued; and after that time, no discontinu-
ance of a subscription will be permitted. Nor
will a subscription be discontinued for any
earlier notice, unless any thing therein remains
due, unless at the option of the editor.
V.—Premiums in extra copies, offered in consid-
eration of either advance or early payments.—1st.
To every subscriber who shall pay for vol. 9,
strictly according to the above conditions (in
Articles I. and II.) before January 31st, (when
No. 1. will be issued,) an extra copy of the
same shall be sent; or instead, if preferred by
him and so ordered, a copy of either vol. 7 or
vol. 8. In like manner, and at the same rate
of deduction, any one person may obtain any
number of copies to supply others.
2d. To every subscriber, not thus paying in
advance of the publication, but who shall do so,
and in all other respects comply with the above
conditions before June 30th, an extra copy of
either vol. 7 or vol. 8 shall be sent; and the
same to every new subscriber, paying as above
required (in Art. I. and II.) at the time of his
subscription being ordered.
3d. Every subscriber who has received all
the back volumes of the Farmers' Register, and
who may be entitled by his payment to either
of the two foregoing premiums, instead of them
may, at his choice, and by his direction, be
credited for vol. 10, to be issued in 1842.
Remarks.—Any extra copy, sent as above
stated, will be directed only to the name of the
individual entitled to it as a premium; but sent
to any post-office that may be desired. The
sending of every such extra copy will cease
with the volume, but the like arrangements
may be renewed, and similar advantages ob-
tained by any subscribers hereafter, upon the
renewed performance of like conditions.
No Agents, or general collectors, are em-
ployed for the Farmers' Register. But any
subscriber, postmaster, or other person, may
obtain for his own profit the large allowances
offered in the operation of the non-specie-pay-
ing banking system, by procuring the publica-
tion for the benefits to the publication for which
the premiums are offered.
The Weekly Farmers' Register is published
every Saturday Morning. On the Cash System,
the payment of five dollars (free of postage
discount, or other deduction, made in advance
or at the time of subscription,) will entitle any
subscriber to two copies, or to two different
volumes of the Farmers' Register, either in that
or the monthly form of publication. See for
particulars the statement of "prenumiums," in
connection with the general conditions of publica-
tion for 1841.
* It will be again required (as formerly,) that
mail payments shall be made in the notes or
checks of specie-paying banks, should any such
banks be in operation in the states which sub-
scribers severally reside. Until then, the pub-
lisher, like all other creditors, and laborers at
fixed prices, must submit, as now, to be de-
frauded by the operation of the non-specie-pay-
ing banking system, of the difference in value
between the best of such bank paper and specie.
† A postmaster may enclose money in a
letter to the publisher of a newspaper, to pay
the subscription of a third person, and frank
the letter, if written by himself. (Signed) Amos
Kendall, Postmaster General.

MAY DAY

WILL Stand the ensuing Season at the
Subscriber's Plantation four miles be-
low Cambridge, on the Edgefield Road. He
will let to Mares at the low price of twelve
dollars the season, payable the 1st of January
1842; but may be discharged by the payment
of ten dollars within the season. Notes will be
required in every instance, when the Mare is
put. Good pasturage will be furnished gratis
for mares and colts, which may be left with
the horse, and fed with grain twice each day, if re-
quired, at 25 cents per day. Every care will
be taken to prevent, but no liability will be in-
curred for escapes or accidents. The Season
will commence the 1st of March, and expire the
15th of June.
Description.—May Day is a dark brown, with
a star in his forehead, and some white hairs on
his tail, 16 hands high, possessed of uncommonly
fine appearance, form and symmetry, and
has every form which constitutes a Race Horse.
May Day was foaled nine, will be five years
old on the 1st day of May next, from which
circumstance he takes his name.
Pedigree.—May Day was sired by that cele-
brated Stallion, Argyle, whose blood and per-
formance on the turf, are so well known, that it
is deemed unnecessary to insert it in this ad-
vertisement. His dam, Black Agness, was
sired by Old Phenomenon, g. dam by Col. Sin-
gleton's Old Ganemede, his g. g. dam by Cal-
donia. Black Agness was trained in the fall
of 1833, by Col. J. D. Williams, with his horse
Black Hawk, when he made his first great feat
on the turf at Newbury village, for the great
colt purse, which he won with ease. She was
not allowed to run, in consequence of her be-
ing six months older than the rules of the turf
required. In a trial race with Black Hawk,
they make a dead heat, and she never was
trained afterwards. I never had doubted but
what she would have distinguished herself if
she had been tried.
R. GRIFFIN, if 3
Feb. 16, 1841.

ARGYLE,

THIS celebrated Race Horse and Stall-
ion will stand the ensuing Season,
from 15th February to 15th June, at Mr.
Wm. B. Mays', in Edgefield District, S. C.,
3 miles from the Court-House, on the
Augusta Road. He will be let to mares
at \$20 the single visit, \$30 the Season,
and \$50 to insure; and one dollar to the
groom in every instance. The money, or
an approved note payable the 15th Decem-
ber next, must be sent with each mare, or
she will not be served. Good pasturage
will be provided, and mares fed on grain
at a reasonable price, and servants board-
ed gratis.
Every care will be taken of mares and
foals, but no liabilities will be incurred for
escapes or accidents.
ARGYLE is a dark brown horse, with-
out hair, except a star, fifteen hands and
three quarters high; possessed of uncon-
mon bone and muscle, and a form com-
bining with perfect symmetry, every es-
sential of a Race Horse. He is now ten
years old, having been foaled in Maryland
in the Spring of 1830. He was sired by
the famous Mons. Tonsou, his dam Thistle,
was by Argyle's Osear, his grandam by
Dr. Thornton's Imported Horse Clifden;
his g. g. dam by Mr. Hall's Spt; and his
g. g. g. dam by Dr. Marshall's Hyder Ally,
who was by Lindsay's Arabian.
The Performances of ARGYLE upon
the Turf, have placed him in the very first
rank of American Horses as a Racer, while
those of his get entitle him to an equal
standing as a Stallion. He started first at
Orangeburg, S. C. in January 1834, and
ran at Barnwell, Augusta, Macon, Colum-
bia, and Charleston, two, three, and four
miles heats, winning successively 8 races,
five of them of four mile heats, beating
Patsy Wallace, Rattlesnake, (Times) Lucy
Ashton, Rushlight, Bertrand junior,
(twice) Vertumnus, &c. &c. He never
lost a heat, and was rarely if ever put up
to his speed, until his extraordinary defeat
by John Bascombe in April, 1836, the
circumstances of which are familiar to
every one. Subsequently he was trained
and run with great success in Virginia;
and in May last on the Centra Course at
Baltimore, after running for the first heat
of three miles, and losing it by a head in 5
minutes 47—seconds, he won the second
heat in 5 minutes, 40 seconds, being the
best second heat of three miles recorded in
the history of the American Turf, and the
most brilliant performance of a year sur-
passing all others in the richness of its an-
nals. During the same week, and on the
same course, one of his daughters, Kate
Seaton, won the great sweepstakes of
\$1000, beating a fine field with great ease;
such a coincidence being hitherto unknown
upon the Turf.
ARGYLE stood but one season and to
a limited number of mares, no many of
which were thorough bred, yet his colts
have won nine out of the eleven races for
which they have been started, beating at
one, two, and three miles, the get of many
of our best Stallions, besides several im-
ported colts, some of them in first-rate
time. Two of his get, Governor Butler
and Kate Seaton, are now unrivaled upon
the Turf by any thing of their age.
The owners of ARGYLE, is bringing
him back to the State in which (tho' not
foaled) he was first trained and gained his
earliest laurels, present him with confi-
dence to the Public, as being in every way,
on account of his blood, size and form, his
performances on the turf, so remarkable
for endurance, as well as speed, and the
extraordinary success of his get, worthy of
their entire approbation.

THE CULTIVATOR,
A Consolidation of Buel's Cultivator and
the Genesee Farmer.
W. GAYLORD & L. TUCKER, Editors.
PROSPECTUS OF VOLUME VIII FOR
1841.

In offering to the agricultural public of the
United States, the prospectus of the Eighth
volume of the Cultivator, (the second of the New
Series,) we desire the privilege of taking our
patrons and correspondents familiarly and cor-
rectly by the hand, and thanking them most
heartily for the very liberal aid and support they
have rendered us, both by their communications
and their subscriptions.
The Cultivator was established to improve
and elevate the Agriculture of the country; to
give a proper tone to the morals and mind
of the farmer; to show him the dignity and im-
portance of his profession; to store his mind
with useful knowledge, and convince him that while
all classes are and must be more or less de-
pendent on each other, he alone of the whole can
make any near approach to independence. If
there is one thing more than another, which in
this country gives a man superiority over his
fellow men, it is knowledge; and this knowl-
edge, — knowledge which is as essential to the
success of the farmer as of other men, it is the
design of the Cultivator to aid in imparting.
In taking charge of the Cultivator, the Ed-
itors were aware of the arduous nature of the
undertaking. Under its former conductor, this
journal had already attained a very high char-
acter, and we might have shrunk from the task
of sustaining the reputation it had gained, or
from the efforts necessary to still further ele-
vate its standing, had not the assurance of aid from
the ablest writers and the most experienced far-
mers of the country, — aid which our columns
will show has been and will be most promptly
and fully rendered; encouraged us to the under-
taking. How far we have succeeded must be
left to the readers of the Cultivator to deter-
mine; but if an increase of subscription beyond
any precedent in the history of agricultural
journals of this country; if the almost uni-
mous voice of the public press in our favor; if
the multitude of private yet flattering testi-
monials we have received, added to a circulation
probably treble that of any other journal de-
voted to the agricultural interest, may be adduced
as evidence, then we have certainly most abund-
ant reason to be gratified with our success.
If our efforts to render the Cultivator worthy
of the patronage it has received, an expense or
labor has been or will be spared. As it is evi-
dently where received as the exponent of the con-
dition and prospects of Agriculture in the Uni-
ted States, we intend that every subject con-
nected with the great interest in any part of our
country shall receive its due share of notice,
and its proper place in our columns. The Cul-
tivator will be a record of all improvements in
the science of Husbandry; of the introduction of
new and important varieties of seeds and
plants; of the respective values and adaptation
of the several improved breeds of Horses; Cattle,
Sheep and Swine, to different sections of
the United States; in short, it is intended to
make it a work which shall interest, instruct
and be acceptable to all.
In the number, variety, and excellence of the
illustrations, the Cultivator is without a rival,
either at home or abroad. This department
will be fully sustained, and increased interest
and attraction given by a greater number of
figures of American Animals, selected from the
best specimens of all kinds, native and imported;
by the drawing of new implements, Agri-
cultural and Mechanical, and by engravings of
such objects as will be better understood, when
given with such illustrations. The engravings
and illustrations of the present volume will be
nearly equal to one hundred in number; and the
satisfaction they have given our patrons will
secure their continuance notwithstanding the
great expense they necessarily occasion us.
The sales of the Cultivator have been so
great during the past year, and the demand for
the back volumes as well as the current one so
constant, that we have stereotyped each num-
ber and shall be able, now and hereafter, to
furnish subscribers with whole sets, or any sin-
gle volumes they may desire.
To our personal friends, to the friends of A-
griculture, to those Gentlemen who have acted
as Agents, to Postmasters generally through-
out our country, — in short to all those who have
so generously interested themselves in our be-
half, in bringing a knowledge of our work to
the notice of their friends, and in obtaining sub-
scribers; our most heartfelt and cordial thanks
are due. While we have endeavored to make
our terms such as to offer an adequate induc-
ment to those who are disposed to support
our pecuniary motives to interest themselves
in our favor, who shall still be indebted to all
who will in any way aid us in our efforts to
make the Cultivator more generally useful, ei-
ther by increasing its circulation or employing
their pens for its columns.
Our gratitude is especially due to those gen-
tlemen whose numerous able and varied com-
munications have given such an interest and
value to our paper; and we are confident from
their well known regard to the vital interests of
American Husbandry, that they will not be in-
dignant if we say that we will not be in vain. We
invite communications from all. There is
scarcely a subject in nature that is not more or
less intimately connected with agriculture, and
we must be made subservient to its advance-
ment.
TERMS.—One Dollar per annum; six copies
for \$5; the money to be remitted in advance,
free of postage. A commission of 20 per cent
will be allowed to Agents who obtain 25 or
more subscribers, and 25 per cent to those who
obtain 100 or more. All subscriptions to com-
mence with a volume.

Notice.
ESTRATED or Stolen from the sub-
scriber on the 29th of November,
1840, a Sorrel Mare, about fourteen hands
high, with a blaze face, flax mane and tail,
shod all round, four years old next spring.
I will satisfactorily reward any one who
will deliver the said Sorrel Mare to me, at
Fountain Inn Post Office, Greenville
District, S. C., or will give me such infor-
mation so that I can get her.

Citizens of Charleston,
AND THE NEIGHBORING STATES.
YOU are respectfully informed that 70
MEXICAN STRAITS 70 is my Office.
for the exclusive sale of BRANDRETH'S VEGET-
ABLE UNIVERSAL PILLS. Price twenty
five cents per box, with directions in English,
French, Spanish Portuguese and German.
The high and universal reputation of the
Brandreth Pills, renders it unnecessary to com-
ment largely on their particular virtues. As an
anti-bilious and purgative medicine, they are
unequalled by any. Their purifying effect on
the blood is universally allowed—all that have
ever used have approved and recommended them.
In many cases where the dreadful ravages of
ulceration had laid bare ligament and bone, and
where to all appearance, no human means
could save life, have patients by the use of these
Pills, been restored to good health; the devour-
ing disease having been completely eradicated.
In consequence of the pleasantness of their
operation, they are universally used in every
section of this wide extended country where
they are made known, and are fast superseding
every other Preparation of professed similar
import. Upwards of Fourteen Thousand cases
have been certified as cured, solely from the use
since the introduction of that into the U.
States, thus establishing the fact beyond all
doubt, that the Brandreth Pills cure the (apparent-
ly) most opposite diseases, by the one
simple act of continually evacuating the bow-
els with them, until the disease gives way;
therefore, whatever may be said of the THEORY,
the UTILITY of the PRACTICE is now BEYOND all
DOUBT.
As Brandreth's Pills cure Scurvy, Costive-
ness, and its consequences, seasickness, men,
and all travellers to foreign regions, should not
be without, in order to resort to them on every
occasion of illness. No medicine chest is re-
quired where they are.

N. B.—Time or climate affects them not,
provided they are kept dry. Southern gentle-
men will find this medicine one that will insure
health to the people on their estates.
Be careful and never purchase Pills of a
Druggist, professing to be Brandreth's Pills.
Under no circumstances is any one of this
class made an Agent. My own established
Agents have INvariably an ENGRAVED Certifi-
cate, signed B. Brandreth, M. D. in my own
hand writing. This is renewed yearly—and
when over twelve months old, it no longer
guarantees the genuineness of the medicine,
it would be well, therefore, for purchasers to
carefully examine the Certificate. The seal is
not wax, but embossed on the paper with a steel
seal. If the genuine medicine is obtained, there
is no doubt of its giving perfect satisfaction,
and if all who want it are careful to go by the
above directions, there is little doubt but they
will obtain it.
Remember 70 Meeting street, is the only
place in Charleston where the genuine medi-
cine can be obtained, and at W. W. Sales, Ham-
burg and C. A. Down, Edgefield G. H. the only
authorized Agents for Edgefield.

(Water-Proof.)
WARE-HOUSE.
AND
Commission Business.
THE Subscriber is much gratified that he
is once more able to offer his services to
his friends and old customers, and the public
generally in the Ware-House and Commission
Business. He flatters himself that the eligible
location of his Ware-House, and its comparative
immunity from the risk of fire and flood, will
procure him a liberal patronage.
He has rebuilt the Ware-House formerly
known as Adams & Walker's, and is filling up
new wing of it above the highest water-mark of
the late freshet, for the purpose of storing there
in the Cotton of Planters and Country Merchants.
This site is at least two feet higher than any
other ware-house in town; and the division
that has been elevated will store from 1800 of
2000 bales.
He will sell Cotton, and attend to such busi-
ness as is usually transacted by Commission
Merchants, at as low a rate as others engaged
in the same calling.
In again offering his services to his friends
and the public, the subscriber cannot refrain
from acknowledging the liberal patronage he
once received from them; and hopes by his at-
tention to business that it will be renewed, and
it will be thankfully received.
